

Reinventing civilisation for life in the Anthropocene

 **CIIC** – September 2018

Human created organisations drive planetary systems

Feedback loops

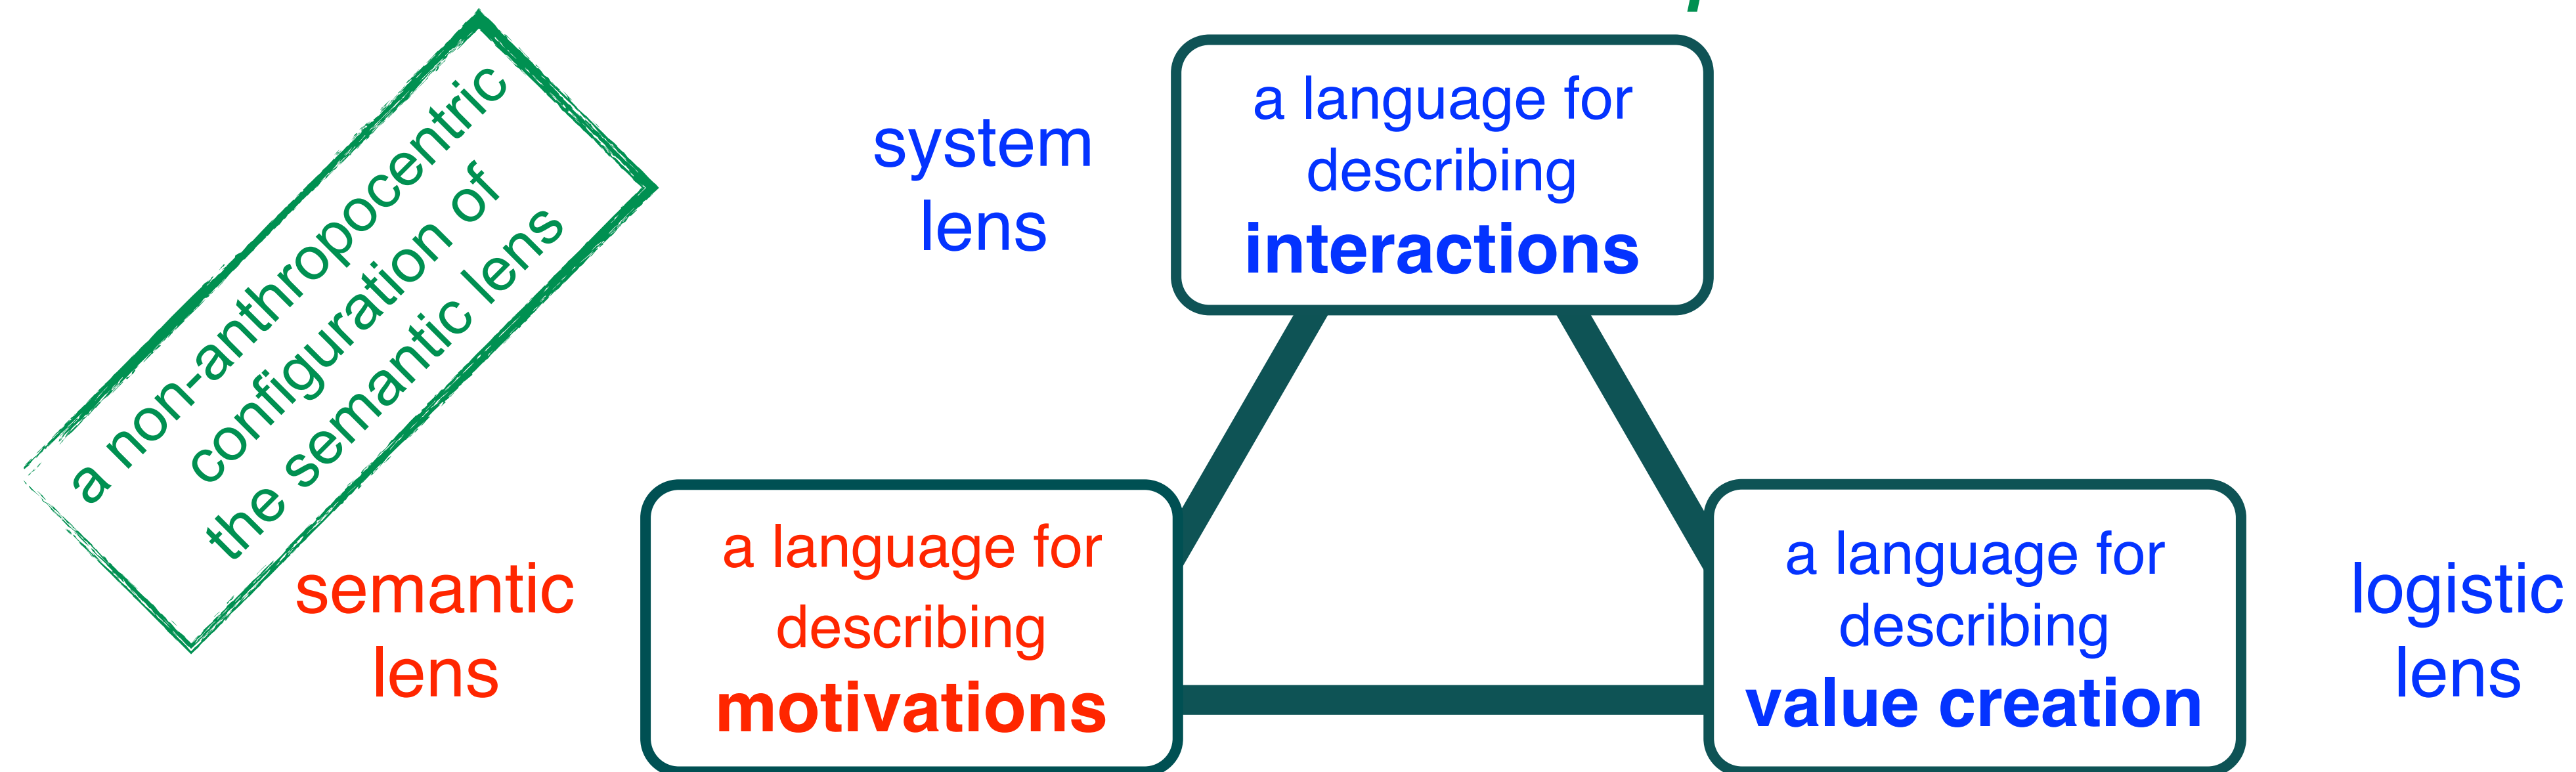

Confronting Anthropocentrism

<https://youtu.be/pZkFj9uPKXo>

The ~~human~~ living agent lens

*to make sense of the world and the natural environment from a **living agent** perspective,
to evolve our value systems, ~~and to structure and optimise human activities~~
to enable other forms of life to evolve independent of human interests*

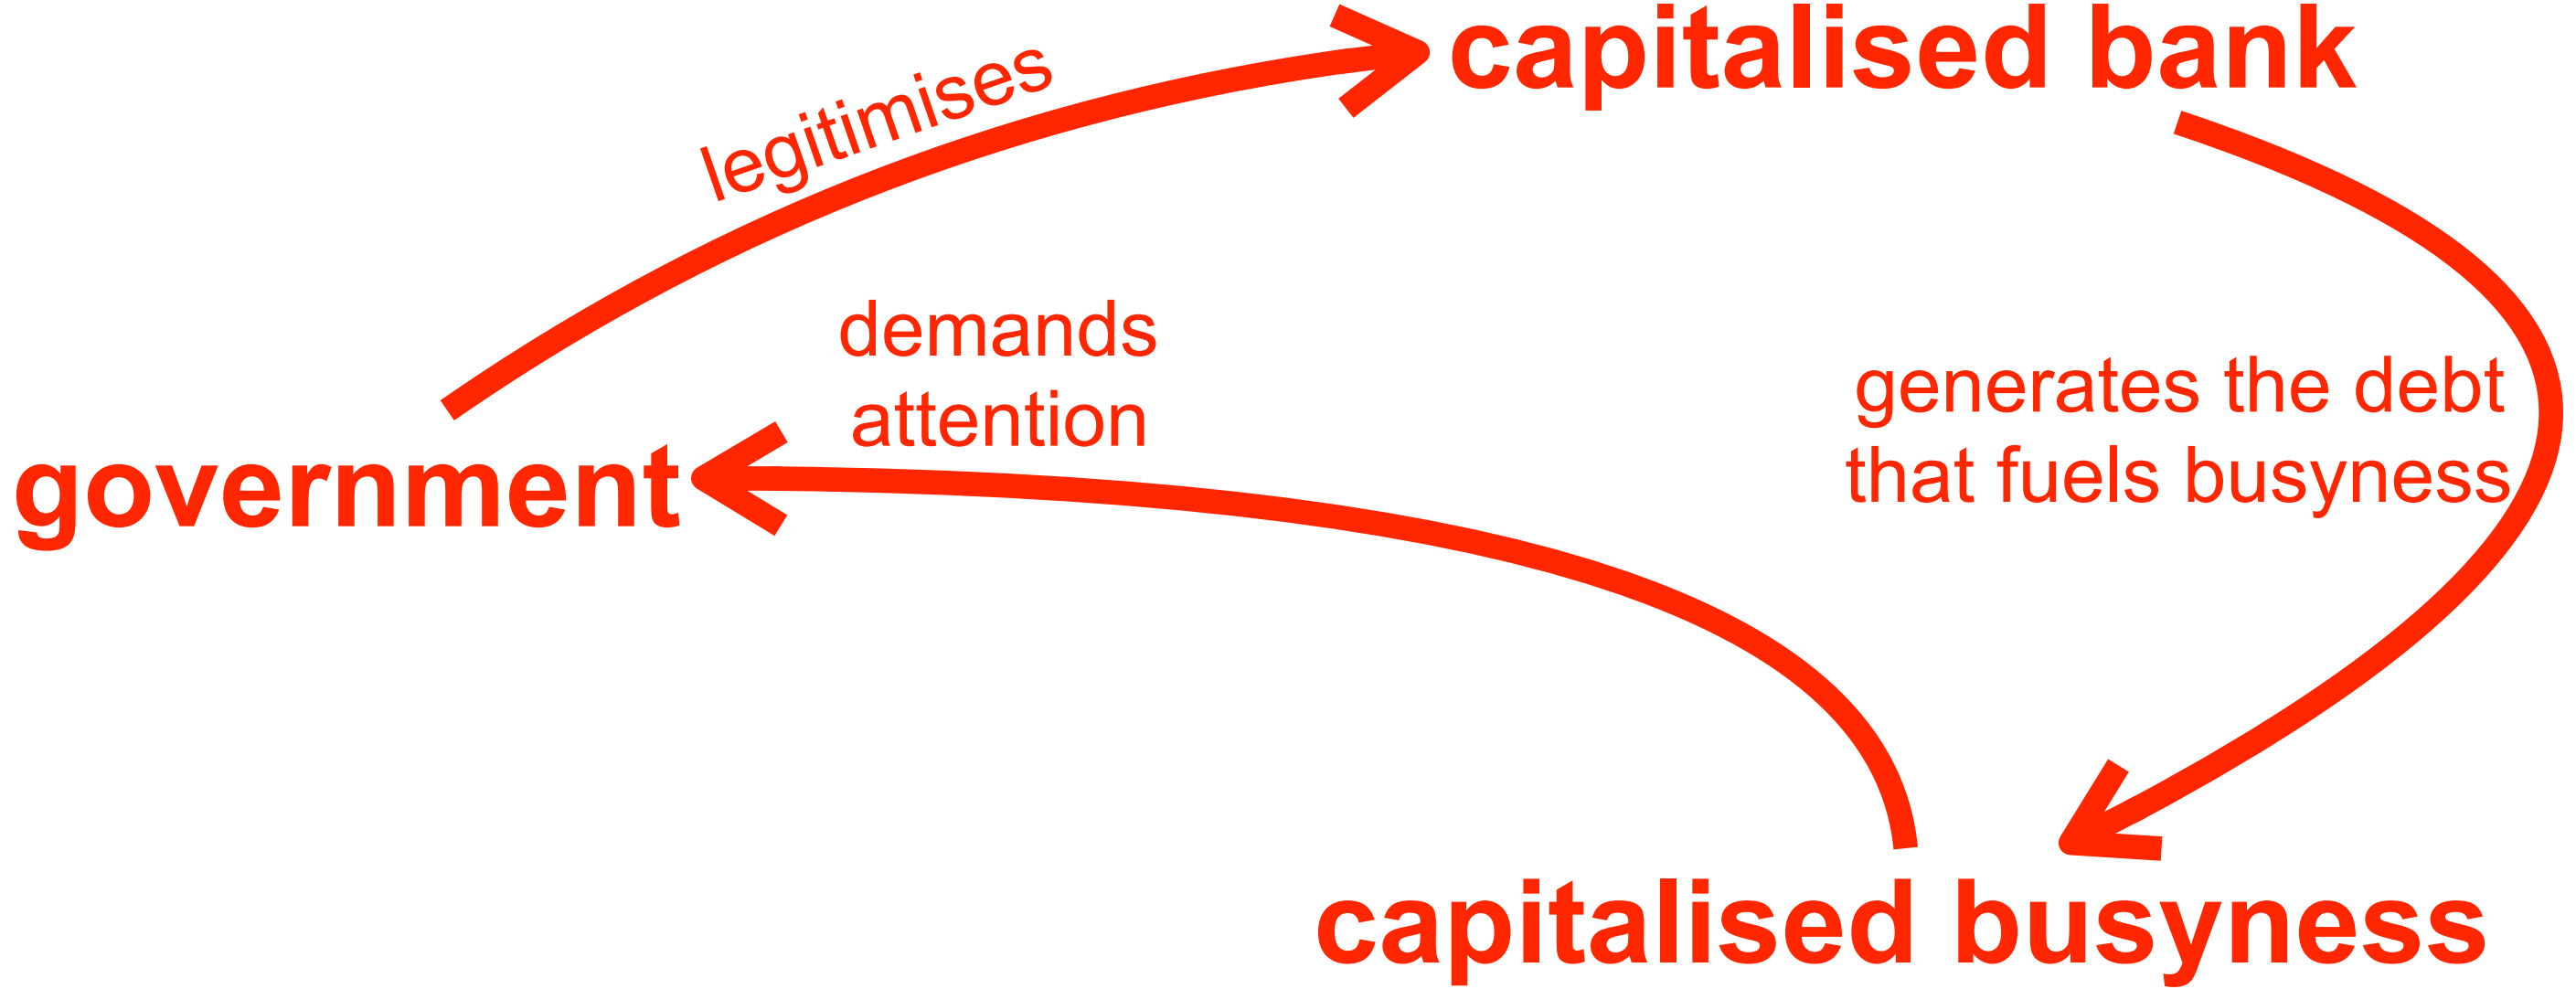

play, learn, observe, question, innovate

Thinking Tools for Interdisciplinary Research, Design, and Engineering

<https://coininco.files.wordpress.com/2017/08/moda-and-mode-lenses-and-principles.pdf>

The “economy” constructed by contemporary culture

The pinnacle of Anthropocentrism

Thank you!
